

# CINDY WANG

cindyw.me

Product Designer and Software Engineer from Phoenix, AZ

623.262.6866

| cw653@cornell.edu

## EDUCATION

### Cornell University

Ithaca, NY

B.S. Computer Science, 2019

Organizations: Medium Design Collective, Alpha Phi Omega Gamma Chapter, Chorale, Cornell Taiwanese American Society

## SKILLS

Sketch · Illustrator · Photoshop · Lightroom · Python · Java · HTML · CSS · C · OCaml · Arduino

## EXPERIENCE

### Adobe Campus Ambassador

Fall 2017 - Present

Adobe Creative Club Network

- Communicated with Adobe representatives to promote Adobe CC on campus
- Planned and executed workshops to educate attendees about design and teach them how to use Adobe products

### Product Design Intern

June 2017 - Present

StartupTree

- Redesigned web platform and the brand's web style guide to have a more consistent interface and be more user-friendly
- Designed and oversaw implementation of a module for applications and competitions with in-platform judging capabilities
- Created mockups for the platform's mobile application

### UX/UI Designer

Fall 2016 - Present

Medium Design Collective, Web Team

- Revamped website to better reflect the organization's brand
- Worked on frontend web development (HTML and CSS with Django backend)
- Collaborated across teams to run large-scale design events

## VOLUNTEER & LEADERSHIP

### Director of Public Relations

December 2017 - Present

Alpha Phi Omega Gamma Chapter

- Create marketing materials for external exposure of the chapter
- Coordinate the selection, design, and purchase of all fraternity merchandise
- Previous roles: Webmaster (Fall 2016), Historian (Fall 2017)

## PROJECTS & AWARDS

### Interactive Visual Music Sequencer

Fall 2017

INFO4320: Introduction to Rapid Prototyping and Physical Computing

- Designed and built a sequencer to help individuals experience music creation without a background in music
- Created using a Teensy Arduino and audio shield, Adafruit button pads, and laser cutting

### Battleship

Fall 2017

CS3110: Data Structures and Functional Programming

- Designed user experience for a REPL style Battleship game
- Implemented using OCaml

### Recycle Rampage, Best UI/UX Hack

September 2016

BigRed//Hacks

- Designed gameplay for a mobile game that teaches users about recyclables
- Hand-created visual assets using open-source software (GIMP)
